LATER FROM THE SEAT OF WAR.—The True Sun has received telegraphic advices from Baltimore, which give dates at Matamoros to the 8th inst.

On the 5th inst. Gen. Taylor left Matamoros for Camargo. He left a sufficient force at Matamoros and Point Isabel to defend those places against any attack.

Capt. Walker is reported to have been left at Matamoros dangerously ill.

A desperate battle had occurred near Camargo, between six hundred Comanche Indians, and eighty of our troops. Twenty Indians were killed, and a number wounded.

Amongst the spoils of the victors were upwards of one hundred fine and valuable horses.

The loss of the Americans was but two killed, and a very few wounded—none very badly.

It was reported that a force of 4000 Mexicans was gathered near Monterey.

The Supreme Court, Judge Durfee, commences its session in this town to-morrow.

Prof. Woolsey was elected President of Yale College, on Thursday last, to fill the vacancy occasioned by the resignation of President Day.

The young gentlemen(?) that we alluded to a day or two since, who went in bathing on Goat Island, and so indecently exposed their persons, we are glad to learn, do not belong in Newport. The boat that they occupied they hired of Mr. Carr. We state this fact in regard to the boat, so that another boat bearing the same description may not be implicated.

PEACHES.—The New York correspondent of the North American says:—our peach season is just commencing, and they say that the crop is to be over and abundant. One Orchard in New Jersey (that of Messrs. Stevens) will send 80,000 baskets of this delicious fruit to market this season, which will average 50 cents, making the snug little income of \$40,000, from peaches alone.

The Columbian Magazine, for September, published by Israel Post, New York, is already issued and on our table. This is decidedly a rich Number, being filled with choice articles from the pen of such writers as Mrs. Sigourney, Mrs. L. Maria Child, Miss C. M. Sedgwick, Miss Fanny Forrester, and a number of other writers of equal talent. It also contains a splendid mezzotint engraving of Capt. May's charge at Resaca de la Palma, which is as well executed as any engraving we ever saw. The Columbian seems to be ahead of all the other Magazines in getting up engravings: in their August number No. they had one of the "Fall of Maj. Ringgold," and now "Capt. May's charge," two events which have but just transpired, the history of which every person is familiar with, and deeply interested in. This No. also contains a line engraving of "Roger's Slide," and a Fashion Plate. For sale by Goff.

The bark Kingston, 300 hundred tons burthen, was launched in Warren on Saturday. She was built by Messrs Chace & Davis, for a firm in Philadelphia, and is designed for the West India trade. She is to be commanded by Capt. Wm. Bowen of Barrington—so says the Warren Star.

Correspondence of the N. Y. Tribune.

LATER FROM MEXICO.

VENA CRUZ, July 31st, 1846.

The denouncement mentioned in my last, has happened. The portrait of Santa Anna has been carried in triumph through the principal avenues of the city with acclamations, and the approving quiescence of the National troops of the Fortress of San Juan D'Ulla. You may rest assured this movement will go forward, and Santa Anna and Almonte will make a triumphant passage from this to the Capital of the Republic. This will cement all defection within the boundaries of the Nation, and as a natural consequence, bring about a more energetic defence of the National Honor. A universal sentiment prevails; and the one idea is to "repel the invader, and recover ground lost by the inaction of the National forces."

Whether we shall be able to carry out our intentions, or rather intended efforts, must be decided by the future. It is believed here, however, that the Government of the United States will soon be sick of their war upon us, and confess it is not so easy a matter as they imagine to overrun and subdue Eight Millions of united hearts, stung to madness by unparalleled injustice, persevered in for nearly ten years, and terminating in an invasion as a justification of it.

You will discover, by the papers that will now reach you, that *Letters of Marque* are to be issued for the distressing of your commerce; that a decree has passed, unanimously, in the National Junta, for the promotion of all who signalize themselves, in future engagements, with the United States forces; that a line of circumvallation is to be thrown up around the city of Mexico to an extent of many miles in circuit, and that there is a determination on the part of the whole people to resist whatever forces may appear among them in an offensive attitude.

You will perceive from all this that your forces are now about to realize the difficulties which, had we been more assiduous, would have ensued, probably, a different feeling among them; a feeling other than that of security.

The decree alluded to above, sanctions a change in the formation of battalions; that is intended, as you will probably perceive, at once, to enable the force to attack those under General Taylor, guerilla-fashion, or small harassing sections; as the forces of the United States are composed, principally, of new levies, attacks by such small sections, will materially impede their success.

General Paredes was about to leave the Capital for Monterey; it is said that town has received many additions recently of military and other stores, and these are placed under the control of the General commanding there at this time.

Authority distinctly denies any Mexicans were killed in the rencontre with the launches of the Blockading Squadron off the river Antigon, although several shells were thrown from the fleet. A long list of voluntary subscriptions in aid of the war will be found in some of the journals now sent to you. Altogether, the news that will now reach you will be found very interesting. As to what may be the prevalent notion of the course likely to be adopted by Santa Anna, it will possibly be better to remain silent upon at the present time. You are fully aware of his energy as a man; his return will necessarily strengthen, not weaken, the country. Paredes has conducted himself well, and nobly. The only difficulty with him has been the Monarchy question. If Santa Anna returns, (which there is very little doubt of,) Paredes may, even under him, retain the command he is about to assume of the army of the North.

There has been frequent changes in the Secretaries of the Departments, which will prove to you that a modification was inevitable; the return of Santa Anna will amalgamate all opinions. Gen. Bravo himself was formerly, and doubtless is now, a friend of the ex-President. Altogether, affairs never looked better for a consolidation of the nation's strength than they do at this time. I must close.

P. S. Additional letters of this date will confirm all the intelligence in the above.

Santa Anna we fully expect here within 15 days from now.

DE MYER'S CONCERT.—The Concert of this truly celebrated artist, at the Ocean House, on Saturday, was all that was anticipated—and our anticipations were raised to the highest pitch. The hall was full—the best house by half, that has been together on any similar occasions this season, and all were perfectly delighted with this extraordinary performances.

The friends of Temperance will recollect their meeting at the Barney-street Church, this evening. Delegates to attend the Mass Meeting at Providence, are to be chosen. Let there be a full attendance.

The lady who lost her *unmentionable*, will find it advertised in another column.

Mr. Gouan.—It gives us much pleasure to learn, that this great Apostle of Temperance has so far recovered from his late illness as to be now considered entirely out of danger, and that he will in a short time be able to resume his labors in the temperance cause.

The Boston Post says: about 20 minutes to one, on Friday morning, while approaching Allyn's Point, the new steamer Atlantic came in contact with the boom of a sloop, which broke through the side and entered the starboard boiler, causing it to burst. A fireman was scalded, it is feared mortally, by the steam, and one passenger who had on slippers had a foot slightly scalded. Three passengers, who attempted to jump on board the sloop, fell into the water, but were soon picked up. The story is that the master of the sloop kept his light burning till 9 o'clock, when he put it out and turned in.

A Jacksonville (Florida) paper notes the continuation of rain for forty-one days at that place.

Bogle's Hyperion Fluid is becoming immensely and deservedly popular. It is unquestionable superior to any thing of the kind now in use, and those will admit it, who may test the matter. Ladies who wish the very best article in the world to give the hair beauty and natural gloss, as well as to give it a satisfactory set, should try the Hyperion Fluid. We mean just what we say, and have no fears of having the matter tested. Bogle is no less skillful and happy in his style of dressing the hair. Put your head in his charge, and see if this be not true.—*Star* Aug 21 2w

Owing to previous arrangements Manchester & brother will be under the necessity of closing their Daguerreotype Rooms, corner of Thames and Mary-streets, Newport, within a short time, (probably eight or ten days,) therefore would say to the good people of this place who wish to present their friends with an invaluable memento, that they can never do better than to give us a call soon. Young lady, bring in that venerable father and watchful mother, and secure a good likeness to-day, for to-morrow it may be too late. Mothers, bring in those little ones with curling hair and sparkling eyes; they will make pretty pictures, and then should they be taken from you, you can exclaim, in the language of the poet:—
"Gone to their rest, yet we would not recall them
Back to this region of sorrow and pain;
Gone to their rest where no ill can befall them—
Yet we have their likeness both perfect and plain."

FOUND.

ON the day of the last sailing party on board the yacht Iantha, a certain article of ladies wearing apparel, which the owner can have of the subscriber Aug 24 6d
SOLOMAN GLADDING.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GRAY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls.—When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by WM. BOGIE, 228 Washington, corner of Summer street, Boston. Sold in Newport by R. J. TAYLOR.

CORNS!
MADAM BERNARD, Corn Doctor, (from Paris) politely announces her arrival from N. York, to the citizens and visitors of Newport, and will feel obliged to those who will honor her with a call, at Mr. ELISHA S. KENYON'S, corner of Thames and Young streets, the honor to inform the public that, by a new and peculiar method, she extracts Hard and Soft Corns, Bunions, Callosities, &c., Without Cutting.
Madam B. does not attempt to offer a nostrum, requiring secrecy or faith to require its efficacy, but confidently assuring those who may suffer from troublesome and painful Corns, that they may have the satisfaction of carrying away their tormentor, their Corn, in their hands.

Madam B. has been practising in the U. States for six years, and in that time she has received testimonials from some of the most eminent Ladies and gentlemen, as to the benefit and comfort which they have received since their feet have been attended to by her. The operation will not occupy more than 10 minutes, and the relief is so instantaneous that persons thus treated can put on their shoes and walk without the least inconvenience.

Madam B. has practised her profession for several years in Boston, New York, Germany, France, and England, and has acquired much skill, and great practical experience—a fact attested by numerous certificates from the most celebrated physicians both of Europe and America, as well as from the nobility and gentry of those countries, delivered to her after four month's cure.

Ladies and gentlemen will be waited upon at their residence.

Ladies and gentlemen who wish Madam B's services, are invited to call as soon as possible.

Madam B. has in her possession upwards of 1,500 certificates.

From the Philadelphia Enquirer and Courier.

RELIEF TO THE AFFLICTED.—We alluded a few days since to the remarkable, efficacious and painless method adopted by Madam Bernard, of 459 Broadway, N. Y. and 151 Court street, Boston, in extracting Corns and curing troublesome Tumors of the feet. We are now induced to refer again to the subject, partly in consequence of more than one friend having called upon us to record their testimony as to the sudden and entire relief they have experienced from the operation of Professor; and chiefly because so many persons are in the habit of advertising remedies for Corns, &c., which are mere empiricism and pretence. The parties who are now in our office, and who have been under the treatment of Madam Bernard, assures us that they did not experience the slightest pain during the process of extraction, and that it was accomplished with an almost magical celerity. We observe also that some of the most eminent Physicians, both of Boston and New York, as well as of this city, have given testimonials to the above effect to Madam Bernard, the writers having experienced a relief from Corns, which had pained them for years. From the Boston Atlas.

Madam Bernard, at 151 Court street, is said by those who have experienced relief at her hands, to effect a radical cure of the most inveterate corns. There is said to be no mistake about it. It is a great discovery, and we recommend all the afflicted to try.

A BEAUTIFUL YOUNG LADY residing in W. street in this city, has received great and unexpected benefit from the use of that excellent specific, RADWAY'S CHINESE MEDICATED SOAP. Some few weeks since she was on a visit to some of her relatives in South New Jersey, where she was very severely bitten by mosquitoes, being at the same time very much exposed to the scorching rays of the Sun, she experienced great pain, and irritation from the effects of the mosquito, and much annoyance from the unnatural darkness of her tanned complexion. We recommended her to use that excellent Medicated Compound, RADWAY'S CHINESE MEDICATED SOAP, she complied with our request, and in three days there was not a single spot, blemish, pimple or blotch left upon her skin, and her complexion is now as fair as the Lily.
